The Secret Test

- Find a ring that your loved one currently wears on the intended finger.
- Place the ring on top of each circle until you find a perfect match.
- The match should perfectly fit along the inner edge of the ring, with the full circle clearly visible. If any of the circle is covered, check the next size down. You may be an inbetween size, ie 4.75 or 5.25.
- Double check against the rings either side for accuracy.
